## Needs

### Travel Expenses

Wisconsin trip- \$2,000  
Family flights to Hawaii training then Alaska- \$6,500  
Colorado trip- \$3,000  
Flights to Thailand- \$6,000  
*Total travel expenses= \$17,500*

**Monthly Support-** Our family's current monthly support is \$3,100 below our necessary budget. We're thankful for the unexpected one-time gifts that have been getting us through this year but are praying for committed monthly support so that we can budget and better plan our travel.

We are amazed at what has already happened in 2022 and are SO excited to see what God has in store for the second half of the year!

### July 18-30- Wisconsin/Michigan

Tactical training course with Vortex Optics; the annual Oshkosh aviation event and airshow; meetings with potential partner organizations

### July 31-August 12- Hawaii

Wilderness First Responder Certification

### Mid-August to mid-October- Alaska

Alaska missions and ministry events

### September 15-20- Colorado

Free Burma Rangers board meeting

### November 2022-April 2023- Thailand

Back to FBR's Thailand base for 6 months

## Prayer Points

### God's presence with us

Our biggest prayer is that God's presence and power would go with us on all these adventures and make an impact on those we encounter. As Moses said to the Lord in Exodus, "If your Presence does not go with us, do not send us up from here."

### Recruiting

We are actively recruiting experienced helicopter pilots, mechanics, and ground personnel for our FBR helicopter program. Please pray along with us that God will send the right people to join our team.

### Training

Please pray for me and the rest of our FBR Aviation team as we complete our helicopter training and testing this summer and fall.

*Kit in FBR's helicopter training with Skip, our Texas instructor*

*Arizona factory maintenance training and our team after course completion*

## Update:

- Our family moved to Killeen, TX in January to oversee the beginning of Free Burma Rangers' helicopter program. FBR purchased an MD 530F helicopter in November and it is based in nearby Georgetown, TX. At the end of 2022 we hope to pack the helicopter and ship it overseas.

- Kittikoon joined us from Thailand in early February to begin his helicopter flight training. We spent two weeks of February in Arizona at the MD factory maintenance course since we will be managing our own maintenance program once it is overseas. Kit progressed through half of his flight training before he headed back to Thailand at the end of May. He will return in September to finish his helicopter certification.

- I began helicopter training in May in a friend's Robinson R44 and am about halfway through my training. I hope to take my checkride by mid-July.

- Through the month of May we've been working on our helicopter's annual inspection and various component updates/overhauls. With more of our aviation team coming from Thailand throughout the year we're working hard to finish up the inspection.

- Thank you for making this all possible!

*In May our family was privileged to represent FBR with a booth at The Send conference in Kansas City. We spoke to hundreds of people about our work in Burma and the Middle East. What a powerful time sending the next generation into missions!*

### Two Giving Options:

- Recurring and one-time donations online at [LovingLifeMissions.org/donate](https://LovingLifeMissions.org/donate)
- Checks made out to "Loving Life Missions" and mailed to:  
*Loving Life Missions  
5688 FM 92 S.  
Woodville, TX 75979*
