Thailand and Burma Winter 2018-Spring 2019

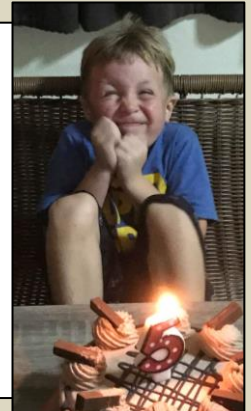

On December 4, 2018, we left Houston for a 5 month trip to Thailand, our third and longest trip to date. We found a family rhythm there and were sad to leave our new home. We are already excited to return in October 2019 after our summer season with Kingdom Air Corps in AK.

We dove into the Thai language through a local language school and home study sessions with Kittikoon.

February was birthday month as Grady turned 5 and Gabriel turned 11

Zack's work this winter centered around the continued development of Free Burma Rangers' aviation department. We made progress this year in many areas of this new FBR program including the runway project outside of Chiang Mai. Flight training was also a priority this year as Kittikoon worked toward his commercial pilot license and two other Rangers began their training. We are beginning to see flight become a reality for FBR.

Our ultimate goal is to see aviation bring needed help to the oppressed people of Burma. We realize the magnitude of this goal and the marathon-like mentality necessary to see it happen. We are excited to partner with FBR during this foundational time of development.

Kingdom Air Corps May-October 2019

We arrived in Alaska on May 9th ready for our fifth season of ministry with Kingdom Air Corps. Zack is continuing his role as Chief Flight Instructor. We look forward to another year filled with students passing FAA checkrides and growing in their commitment to missionary aviation. We will also serve as co-directors of Brooks Range Bible Camp for the third year. Please pray with us for a successful summer!
