Missionaries Through Aviation
August 2018

Kingdom Air Corps: May-September 2018

We are finishing another successful Alaskan summer at Kingdom Air Corps. Since early May we've had the privilege of working with over a dozen missionary pilot students. It is a privilege to train people who have a heart to serve God through aviation. Most of my instructing this year was with the instrument students, including Free Burma Rangers' pilot Kittikoon Wichitphonpaiboon. **Kit successfully completed his instrument checkride on August 15!** There were several other completed ratings and certificates this year through KAC. We know God has a plan for each one of our students!

Some of our FBR friends who visited this summer

Celebrating with Kit after his checkride!

Our friend Stephen Harwerth completed his commercial pilot training this year

Hatcher's Pass- one of our favorite AK hiking spots

Earlier this summer, thanks to funds raised during our Loving Life banquet in April, we remodeled the office at Kingdom Air Corps into a flight ops room. This gave KAC students an updated space for study, flight planning, simulator practice, and ground school sessions.

Your gifts make a difference to our students, thank you!

Before...

The finished product!

*"Oh, the overwhelming, never-ending, reckless love of God...
It chases me down, fights til I'm found, leaves the ninety-nine..."*
- **Reckless Love, Cory Asbury**

What a song! It has carried us through this year and helps us focus our ministry on those desperate to feel God's love. **Your encouragement and support make it possible for our family to extend His love in Alaska. Thank you!**

"What man of you, having a hundred sheep, if he has lost one of them, does not leave the ninety-nine in the open country and go after the lost sheep until he finds it? *Luke 15:4*

Brooks Range Bible Camp: July 2018

Prayer before departing Anaktuvuk Pass

Sarah and I served again as directors of Brooks Range Bible Camp. BRBC is Kingdom Air Corps' annual outreach to the young people of northern villages like Anaktuvuk Pass, Alakaket, and Arctic Village.

It was another record year for camper attendance with **51** 8-12 year old kids the first week and **22** teens the second week! **Our camp theme this year was GROW and was supported by 2 Peter 3:18, "But grow in the grace and knowledge of our Lord and Savior Jesus Christ. To him be glory both now and forever! Amen."** It was a fitting theme as the situations and struggles of our campers forced us to dig deep for God's solution. Many of the KAC students who work as counselors experience this deeper side of ministry for the first time at camp. It is exciting to help them through these challenges as we work together.

During the first week, **five children prayed for salvation and put their faith in Christ.** During teen week, **two young men from the village of Anaktuvuk Pass were baptized** and recommitted their lives to Jesus. It is such a joy to see change coming to villages of the north through this generation!

Evening chapel

Baptizing our good friend Devlin!

One of the moments that touched my heart the most was this scene from the church in Anaktuvuk Pass the Sunday after teen camp. **The teens led the church in singing a few songs, including this year's camp favorite, *Reckless Love!*** It's amazing to see them grow in their understanding of God's love and then share that with others at home!

Free Burma Rangers, Thailand: December 2018-May 2019

We are so EXCITED to return to Thailand and work with FBR in December. **We will be there for six months on student visas through a Thai language school.** Several aviation projects are already on our list:

1. **Runway construction**- FBR has funds and property available to construct their own runway on their base. This will allow their Cessna 172 to be legally registered to FBR and moved out of the flying club.
2. **Flight Training**- Kittikoon will be working toward his commercial pilot certificate and our friend Kaw Say, FBR's patient care coordinator, wants to begin his initial training. Both are hoping to come back to KAC in AK for flight testing in 2019.
3. **Continual Development of FBR Aviation**
 - **Flight into Burma, Bangladesh, and Beyond**- Our goal is to fly in and out of Burma and other FBR relief locations, bringing supplies and personnel in and medical patients out.
 - **New Aircraft**- The Quest Kodiak is the aircraft ideally suited to FBR flight missions. Please pray with us for the funds necessary to purchase a Kodiak.
 - **Pilot Training and Development**- Missionary flight is inherently risky. Please pray for us to help FBR develop a safe, efficient flight program.

The Quest Kodiak has an average range of 1100 nautical miles. This range circle is centered on the new airstrip site on Free Burma Rangers' property outside of Chiang Mai, Thailand. By operating a Kodiak, FBR will be able to reach all of their current Southeast Asia relief sites and beyond.

A Kodiak operated by MAF in Indonesia

Fall 2018

Texas

In October and November, we will be visiting and speaking throughout Texas before we head off to Thailand. We would love to see you during our time back home!

Kodiak Training

I am planning to visit Parkwater Aviation in November for their specialized Kodiak training course. We believe the connections and experience from this training will begin the process of FBR's purchase and operation of a Kodiak in Thailand. With Parkwater's 75% discount for missionary training, \$2,960 is the training fee.

Partner with us— our current needs are:

1. \$1,000 in additional monthly support
2. \$2,960 for Kodiak training with Parkwater Aviation
3. Thailand—
 - ~\$5,000 for plane tickets
 - \$1,000 for Thai language school training and visas

Give- You can give financially toward these projects by visiting www.LovingLifeMissions.org or by mailing to the address below. All gifts made out to Loving Life Missions or given online are tax deductible.

Thank you for your continued support!
